PROFILE

A passionate and enthusiastic engineer who is always looking for newer and better ways of building applications and backends; while trying to make everything serverless.

EMPLOYMENT HISTORY

Associate IT Consultant, ITC Infotech India Ltd.

Bangalore

Sep 2019 — Present

- Worked as part of the two-person team that developed the Serverless back-end APIs on AWS Lambda and Web Apps for a major client based in the United States.
- Engaged with clients on a daily basis to understand their requirements and propose solutions for problems.
- Lead the internal Android development team responsible for building a customer loyalty app.

Co-Founder, Softrixz

Mangalore

Jan 2013 — Sep 2019

- Lead the various development teams at Softrixz which were responsible for building products for clients using various modern technologies.
- Managed everyday operations and ensured the smooth running of the company.
- Managed customer relationships and developed new strategies to increase revenue.

Co-Founder, TechShaadi

Mangalore

Jun 2016 — Jun 2019

- Lead the development team at TechShaadi which developed its Mobile Apps and Back-end services.
- Played a key role in making technology related decisions and shaping the company's technical infrastructure.
- Engaged in customer pitches and analyzed pain points to improve the app functionality.
