PROFILE

A passionate and enthusiastic engineer who is always looking for newer and better ways of building applications and backends; while trying to make everything serverless.

EMPLOYMENT HISTORY

Associate IT Consultant, ITC Infotech India Ltd.

Bangalore

Sep 2019 — Jan 2021

- Spearheaded the development of Serverless APIs on AWS Lambda using Node.js and Web Apps using React and Next.js.
- Used AWS services such as EC2, RDS, Lambda, S3, API Gateway, CloudWatch, SNS, DynamoDB and more to architect and develop cloud solutions.
- Engaged with clients on a daily basis to understand their requirements and propose solutions for problems.
- Led the internal Android development team responsible for building a customer loyalty app.
- Integrated Gitlab Continuous Integration and Deployment in multiple projects to enable seamless build, testing and deployment of Web Apps and APIs.
- Conducted detailed and extensive code review of merge requests raised by team members.

Co-Founder, Softrixz

Mangalore

Jan 2013 — Sep 2019

- Led the various development teams at Softrixz which were responsible for building products for clients using various modern technologies.
- Used a wide range of technologies/languages such as Node.js, PHP, Java, MySQL, MongoDB, Electron.js, jQuery, Azure, and more.
- Managed everyday operations and ensured the smooth running of the company.
- Managed customer relationships and developed new strategies to increase revenue.
